Reach your audience and have maximum impact with the V4253D 42" open frame touch display. This great entry-level open frame touch display allows you to take your touch-enabled projects to the next level with a seamless, customized display, and provides a rapid return on investment. Great for customized displays, public spaces, digital signage, kiosks and restaurant/QSR environments, the V4253D gives your message the "wow factor" you've been looking for.

Featuring a public-display-grade panel, commercial-grade construction, optional speakers and touch input flexibility, the V4253D open frame is the solution for all your digital display needs. Using 3M's Dispersive Signal Technology, the V4253D provides fast and accurate touch, and is not affected by surface contaminants such as dust, grime and liquids.
