

TouchSystems

Interactive Digital Signage

Public Access ■ Education ■ Government ■ Medical

Touch products have revolutionized the way we live our lives and enhance the user experience for people around the globe. By creating an interactive experience with a touch-enabled device, users are able to have a personal experience with an otherwise non-personal piece of equipment, building a connection with the people, the business and the brand. The possibilities for integrated touch displays are limitless. Explore interactive digital signage with TouchSystems today.

Digital Signage Applications

- Way Finding**
 Navigate easily through the amusement park using interactive, way finding displays.
 (Amusement Park, Sports Center, Public Area, Convention Center)
- Interactive Digital Signage Sales**
 Skip the long line at the store and purchase items in a snap with a streamlined touch display.
 (Bank, Cell Phone Store, Retail Kiosk)
- Order Placement**
 Reserve a table at a busy restaurant and check on wait times using a touch-enabled device.
 (Table Reservations, Fast Food Order Placement)
- Group Interactive Settings**
 Communicate effectively and create an engaging boardroom experience using a large format touch screen.
 (Government Meeting Halls, Medical Collaboration Room or Setting, Education or Training Setting)
- Information Kiosks**
 Use an interactive display at the movie theater to buy tickets, order concessions or watch the latest movie trailers.
 (Lobby, Hospital, Hotel, Museum, Convention Center, Sports Center or Movie Theater)

Large Format Product Offerings
