Increase productivity with the eco-friendly, high performance 22" W2 LCD Touch Monitor from Touch Systems. This highly responsive, widescreen, interactive monitor raises the bar for 'green' LCD displays, featuring innovative components that lower the total cost of ownership, save energy and track carbon footprint emissions.

Corporate Solution

Consuming 50% less energy than traditional LCD displays, this chic monitor allows its users to achieve maximum productivity with its ergonomic design, widescreen display and accurate touch.

Banking and Finance

Create a more efficient environment with this widescreen monitor, enabling users to work simultaneously in multiple/side by side application windows and eliminating the need for a second monitor.

Health Care

Featuring vibrant colors, intense clarity and a quick responsiveness to touch, this display allows doctors, health care workers and patients to view images quickly and clearly.

Government

Display and edit graphs, charts and complex information with ease while being environmentally responsible with this widescreen display.
