NEC Touch Screen Monitor | 19"

TouchSystems' 19" touch screen monitor with resistive touch technology enjoys popularity in classrooms and small-to-medium-sized businesses. The popularity is partially due to the monitor's energy-saving features; it is LED-backlit and claims both an ECO Mode and an Intelligent Power Manager. It is designed with an IPS panel, which offers quality image performance, and is environmentally friendly. It is mercury free and is equipped with a carbon footprint meter.

For more information, call (512) 832-8292.
